

O. KLEINER AG – Environmental Strategy

PACKAGING AND THE ENVIRONMENT

Production Processes

- solvent incineration with heat recovery
- biofilter
- closed circuit heating-cooling-system
- CO₂-voluntary climate protection agreement
- solar panel electricity generation (photovoltaic)
- use of renewable energy – eco-label "naturemade star"
- **completely carbon neutral production since 2016**

Product Development

- solvent incineration development of aluminium-free packaging
- downgauging of raw materials in order to reduce packaging weight
- raw materials from renewable resources
- development of compostable packaging with heat recovery
- **offset of unavoidable CO₂-emissions**
- **ISCC+ certification**

Future Actions

- CO₂-compensation of flights
- CANPEEL[®]-building „minergie-standard“
- windows with special isolation

CO₂-FOOTPRINT O. KLEINER AG

- ➔ avoidance
- ➔ reduction
- ➔ compensation
